

<b>Title of Event:</b>	Forum Pendidikan and STEM Projects exhibition by UCSI MM Department			
<b>Description:</b>	<p>This event was jointly hosted by the Ministry of Education, Malaysia, UCSI University and also IEEE RAS Malaysia chapter. A forum was organized by a group of panels to facilitate the teachers on Teachers day also the main objective of this event was to show case some of the advanced engineering projects build in UCSI by the engineering faculty staffs and students from various engineering faculties to the school students across Malaysia not only to motivate the students to become future engineers but also to show them how Science, Technology, Engineering and Mathematics [STEM] can play a part in their education. There are more than 10 different projects were displayed for the students.</p> <p>Two projects were displayed from the Mechanical and Mechatronics Engineering Faculty. The first one is the Flying and walking Drone and the next one was Automated car parking system. More than 200 students from different schools visited the booth and gained knowledge. The working model of both the projects were demonstrated in front of the students. Students showed keen interest in the project design and applications.</p> <p>Dr.M.K.A.Ahamed Khan and Dr.Lim took the lead role in explaining the projects. The event ended with a closing speech by the committee MC at 1.00pm.</p>
