

Title of Event:	Seminar talk on-IEEE Professional Ethics			
Description:	<p>Engineering ethics is the field of system of moral principles that apply to the practice of engineering. The field examines and sets the obligations by engineers to society, to their clients, and to the profession. Engineering is the process of developing an efficient mechanism which quickens and eases the work using limited resources, with the help of technology. Ethics are the principles accepted by the society, which also equate to the moral standards of human beings. An engineer with ethics, can help the society in a better way.</p> <p>Hence the study of engineering ethics, where such ethics are implemented in engineering by the engineers, is necessary for the good of the society. Engineering Ethics is the study of decisions, policies and values that are morally desirable in engineering practice and research.</p> <p>The event started at 11 am with a key note address from Dr.Mohamed khan. Later Dr.Khan briefed the audience [25 Foundation level students] the importance of IEEE and its ethics in the professional engineering society. The event ended at 12.30pm.</p>
